

# Back Towards Normal...

As Georgia relaxes the stay at home orders, Northside Pediatrics plans to start seeing kids of all ages for check-ups, while still prioritizing social distancing and safety.

1. **IN THE MORNING ONLY**, well children will be seen. Check-ups for newborns, 2 weeks olds and 2 month olds must be done during the morning session.
2. **IN THE AFTERNOON**, well visits for all ages will be seen on one side of the office. Sick visits will be on the other side of the office, with a dedicated provider performing only sick visits. Sick patients will be kept in their rooms for the duration of the visit, including any lab work.
3. **TO LIMIT YOUR TIME IN THE OFFICE:** An NSP clinical staff member will call your family the day before your well visit to gather necessary information, including nutrition, development and sports screen.
4. **TO AVOID GROUPS IN THE WAITING ROOM:** All patients will wait in their cars until called by clinical staff to come directly back to the room.
5. **ALL** patients will check in and pay online via NSP's check in platform **Phressia**.
6. **ALL** patients and family members > 2 years old will be asked to wear a mask (**PLEASE BRING YOUR OWN MASK**).
7. **MASKS and GOGGLES** will be worn by all NSP staff for all visits.
8. **TELEMEDICINE** visits will be available in the afternoon, and ideal for medication checks and some sick visits, such as rashes.
9. We are offering priority visits to kids whose visits were canceled due to sheltering in place.
